

Center of Excellence for Functional Materials annual seminar, 27.-28.8.2009

The first formal annual seminar will be held at Sigyn Hall Turku on August 27.-28., 2009. An outline of the program is given below:

Thursday 27.08.2009

11.00-12.00 Registration open, Coffee

12.15-12.30 Opening words Prof. J.B. Rosenholm

12.30-13.15 Prof. Michael Tiemann: Nanoporous Metal Oxides as Gas Sensors

13.15-13.35 Jan-Henrik Smått: Novel porous metal oxides with controlled morphologies

13.35-13.55 Jessica Rosenholm: Functional nanoparticles for biological applications

13.55-14.30 Coffee

14.30-15.15 Prof. Liu Hewen: Click Chemistry for Novel Structures with Functions

15.15-15.25 Carl-Johan Wikman: Functional membranes

15.25-15.55 Anu Koponen: Novel amphiphilic star block copolymer

16.00-17.30 Poster session and refreshments

17.30-22.00 Cocktails and Dinner

Friday 28.08

09.00-09.10 Opening words

09.10-09.55 Dr. Paul van der Schaaf: Materials Development for Printed Electronics

09.55-10.15 Roger Bollström: Paper as a substrate for functional printing

10.15-10.35 Anni Määttänen: Printability and print quality of functional materials

10.35-11.00 Coffee

11.00-11.45 Prof. Luisa Torsi: Organic electronic biological sensing: what are we up to?

11.45-12.05 Nikolai Kaihovirta: Membrane Based Organic Transistors

12.05-12.25 Himadri Majumdar: Organic Spintronics

12.25-12.30 Closing words

12.30-13.30 Lunch
